

**AceDoors continuous curtain steel Roller Doors are a quiet, simple and economic solution for openings in a vast range of environments.**

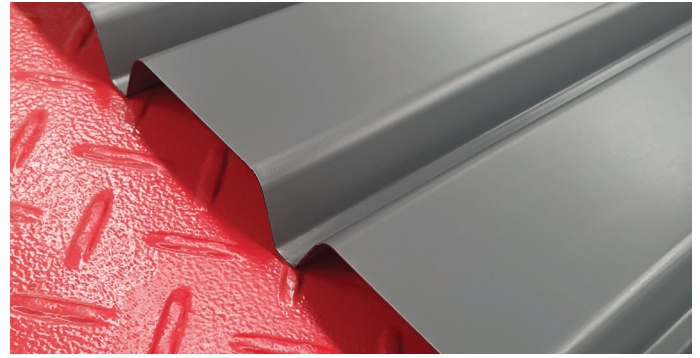

# RESIDENTIAL AND LIGHT COMMERCIAL ROLLER DOORS

## A-Series

AceDoors A-Series Roller Door for the domestic market delivers a classic corrugated profile complementary to many New Zealand roofing and cladding designs. It is a versatile style for many applications including single car garages, small workshops, farm sheds, and storage facilities.

- Available in 0.4 BMT Colorsteel®
- 14mm corrugation depth
- Available in sizes up to 3m height and 3m width

## B-Series

AceDoors B-Series Roller Door offers a deeper, stronger profile while maintaining a fluid design for slightly larger openings in a residential or light commercial setting. This style is suited for vehicle lock ups, agricultural facilities, workshops and much more.

- Available in 0.4 BMT Colorsteel®
- 21mm corrugation depth
- Available in sizes up to 4m height and 4m width

### Colorsteel Endura® offered by AceDoors

Choose from 12 different standard colours for the Roller Door external face (rear is always Grey).

Made from New Zealand Steel and coated by Colorsteel® for ultimate performance against the elements, for over 10 years\*. While NZ Steel Ltd is our preferred supplier, steel products from other sources may also be used.

\*See [colorsteel.co.nz](http://colorsteel.co.nz) for more information

MIST GREEN	GULL GREY
NEW DENIM BLUE	EBONY
SANDSTONE GREY	FLAXPOD
SCORIA	GREY FRIARS
TITANIA	IRONSAND
WINDSOR GREY	KARAKA

## Features

### Roller Door Curtain

AceDoors Roller Door curtains are made from 0.4mm gauge Colorsteel Endura® coil, which is also used for roofing and cladding in New Zealand.

### Sprung Axle

All Roller Doors are sprung. This allows easy manual operation and as a safety measure supports the curtain.

### Durability

An aluminium bottom bar fitted with a rubber weather seal to minimise dirt, leaves or other undesirable matter entering your home provides additional strength to the door.

### Guides

AceDoors Roller Door guides use Nylofelt for greaseless operation. This keeps operation exceptionally quiet and smooth and allows for much lower levels of maintenance.

## Operation

### Motorised

Single phase opener, safety reverse feature, simple installation and quiet operation. Includes 2 remotes.

### Manual

Simple manual operation by D-handle or a hand chain pulley for higher doors. Pulleys on larger doors are geared for easy operation.

## Options and accessories

- Reverse rolled door option for external installation
- Centre lock for full security on manual operation
- Bird proofing brush option available

For more information on these and other AceDoors products talk to your local distributor.
