

## SUMMIT SERIES - SIMPLY REMARKABLE

The Remarkables is a superior smooth design that is not only solid but strong using a folded 0.95 heavy gauge steel.

This creates a modern impact to those discerning homeowners who appreciate minimalist architecture.

Remarkables Sectional Doors are available non-insulated or with insulation inserts that help to reduce noise and heat losses through the garage door.

Available in a selection of popular standard powder coated colours with the added flexibility to choose other colours tailored to enhance your exterior design (extra charges may apply).

AceDoors offers nothing but the best automatic openers choosing the Merlin Commander Elite.

Compatible with additional accessories such as the smart MYQ Connectivity Bundle for controlling and monitoring your door away from home.

AceDoors uses the Merlin Commander Elite automatic opener as standard with all sectional doors. Unrivalled for quietness and packed with cutting edge technology and safety features, it is one of the best performing and feature-rich openers on the market.

### Features and specifications:

- Quiet 240V electric motor
